Each school review generates a number of key improvement strategies to inform continuous improvement in all state schools.

The next steps are...

- ➔ Refine the Explicit Improvement Agenda (EIA) to promote increased clarity, shared understanding, consistent application, and successful implementation across the school.
- ➔ Collaboratively develop and implement a school inclusion framework utilising available departmental resources to inform school practices and future direction.
- ➔ Explore differentiated models of professional support and feedback for staff with consideration of the EIA and individual needs and capabilities.
- ➔ Collaboratively develop and implement a sustainable wellbeing program focusing on building a supportive and inclusive work environment for all teaching and non-teaching staff.
- ➔ Cultivate student agency and sense of belonging across the school by collaboratively exploring the dimensions of engagement and implementing strategies to build students' self-efficacy across all classes.
