30439 RTO policy and procedures

Student Information - USI and Certification

January 2024

Sunshine Beach State High School ensures that learners receive AQF certification documentation when they have met the requirements of the training package or VET accredited course.

The AQF certification documentation will be issued by Sunshine Beach State High School within 30 calendar days of the learner completing all requirements of the course, a verified USI has been recorded and providing all fees have been paid.

A certification document will only be issued to students who retain a verified USI.

What is the Unique Student Identifier?

- An account or file number - ten characters (letters and numbers)
- Assigned **once** to each student
- Included as part of national training (AVETMISS) record each time a training providers reports
- Enables each separate training record for each individual to be linked together in the national database - regardless of which training providers delivered the training

Supported by a USI computer "Registry" system:

- Enables student to access their record and create transcript
- Enables student to permit access to an RTO
- Incorporates strong measures to prevent duplicate records
- Provides separation of identity information and training information

To obtain a USI students must log on to www.usi.gov.au.

1. Upon enrolment students will provide their Unique Student Identifier (USI) on the school VET Certificate enrolment form for verification.
2. If the student does not have a USI they will create one online using verifying documentation such as:
 - a. Birth Certificate
 - b. Passport
 - c. Medicare card
3. The USI will only be used when reporting AVETMISS data via SDCS or other to Queensland Curriculum Assessment Authority (QCAA). It will not be placed on the AQF certification documentation.
